A Quarterly Newsletter of **Odisha Forestry Sector Development Project Phase-II** APRIL-JUNE 2018, VOL-2, ISSUE-1

EDITORIAL

From Project Director's Desk

Capacity building is understood as the process of strengthening the ability of an individual or an organization so as to increase the effectiveness and achieve the expected tasks and goals substantially over the period of time. This definition holds true to every organization undertaking development project and plays a vital role in setting the standards of project implementation. The OFSDP, Phase-II is the third generation development project which aims at restoration, conservation and sustainable management of forests along with alleviation of poverty and improving the livelihoods of local people in the forest fringe areas in the project area of OFSDP-II. One of the strategies integrated in this project is to focus on institutions and build their existing capacities in order to improve their capabilities to deliver the project outcomes in true letter and spirit. Capacity Development (CD) has been planned as a separate component of the project and the PMU has taken a conscious decision to place the CD programmes very strategically as part of its implementation plan. So far, OFSDP-II has successfully completed a host of thematic training programmes for various stakeholders in Project Management Unit and in all the 12 DMUs where the project is under implementation. At field level alone, at

least 1324 project functionaries and staff have been trained on different aspects of project implementation on different thematic areas. The PMU also arranged a major training programme on Training of Trainers on Micro Planning at Indian Institute of Forest Management, Bhopal. This 5-day programme was attended by 15 senior project officers including senior officers from PMU, DMU Chiefs and ADMU Chiefs to augment the sensitization and Micro Plan Training process at various levels. PMU also organized a one day training programme on Web Based Reporting preparation for two concerned stakeholders. The OFSDP-II is emphasizing community capacity building through its project activities and intends to organize and initiate a series of training programmes for the VSS members, SHG members and other stakeholders on Micro Plan preparation, Income Generation Activities and Livelihood Programmes in coming days. In this issue of Banayana, various reports in training programmes conducted are highlighted. Besides the infrastructure development works taken by DMUs and FMUs under OFSDP-II are also covered

Capacity Building

The Training of Trainers on Micro Planning and on different tools for preparation of participatory micro planning process was conducted at Indian Institute of Forest management, Bhopal from 7th May to 11th May 2018. This programme was arranged to ensure Capacity Building of Project Mangers and functionaries for initiating a major project management tool viz. Micro Planning Process in the project areas of OFSDP-Phase-II, for successful implementation of the project.

After the 5-days training programme of ToT the participants could gather common understanding on Micro Planning processes and the appropriate PRA tools to be used for data collection. Total 15 trainees including two women participants joined the training programme at IIFM, Bhopal. During this training the participants were also given an opportunity to access and review Micro Plan Documents of other similar projects to get a firsthand knowledge in preparing similar documents for the OFSDP-II. The training programme also helped the participants to enhance their skills in preparing comprehensive micro plans for the OFSDP-II.

TRAININGS ON WEB BASED REPORTING MANAGEMENT:

As part of training exercise, PMU directed all the DMUs to conduct extensive training programme on Web Based Reporting Management in OFSDP Phase-II for concerned stakeholders. True to the project spirit, all the DMUs completed this important training programme on Web Based Reporting Management which is meant for concurrent monitoring, reporting and MIS data uploading.

The objectives of the orientation programme at field level were to

- Train the officials of OFSDP-II on the need and purpose of concurrent monitoring
- Orient all participants about the different reporting formats prepared for different thematic areas for timely data collection, analysis and transmission to appropriate quarters.
- To expose all participants to Web Based MIS System of OFSDP-II for data entry and analysis

The PMU of OFSDP-II identified thematic areas for the training on the Web Based Reporting which were shared with all the DMUs by the PMU team. The DMUs took up the training on the following thematic areas for their project functionaries.

1. Exposure to Form No.-1 & Annexures (VSS Information, VSS General Body, GPS Survey Data & Incumbency Chart).
2. Exposure to Form No.-2 & Annexures (FMU Information, Incumbency Chart, FMU Level Fort night Review Meeting Record, BLAC Meeting Record)
3. Exposure to FormNo.-3 & Annexures (DMU Information, Incumbency Chart, P-NGO Co-ordination Cell Meeting, DAC Meeting Record)
4. Exposure to Form No.-4 & Annexures (Capacity Building, Participants details & Implementation activities-coordination Cell Meeting , DAC Meeting Record)
5. Exposure to Form No.-5 & Annexures (Survey & Demarcation, GPS Survey data, Implementation of Activities)
6. Exposure to Form No.-6 & Annexures (Consolidation & Demarcation of Forest Boundaries, GPS Survey data, Implementation of Activities)

Outcomes expected from this training are that the participants will be properly oriented in “Web Based Reporting Management in OFSDP Phase-II” and on their respective roles & responsibilities in supplying information for preparation of reports on the on-line entry etc.

The DMU wise details of conducting the training on Web-Based Reporting Management in OFSDP-II are shown below

Training on Web Based Reporting Management in OFSDP Phase-II			
Name of the DMU	Date of Training	No. of Participants	Venue
Athamallik	27th May 2018	36	Block Conference Hall
Ghumsur North Division	26th May 2018	47	Conference Hall of Ghumsur South Division
Baripada	28th May 2018	45	SANKALP Conference Hall
Boudh	25th May 2018	20	DRDA Conference Hall of Boudh
Dhenkanal	31st May 2018	40	DRDA Conference Hall, Dhenkanal
Ghumsur South Division	25th May 2018	40	Ghumsur South Division Bhanajanagar
Jharsuguda	12th July 2018	43	Hotel Sun City, Belpahar
Karanjia Division	31st May 2018	38	Conference hall of Karanjia Division
Rairangpur DMU	29th May 2018	42	Santi Plaza, Rairangpur
Sambalpur	26th May 2018	36	PMU Office of Samabalpur Division
Sundargarh	27th May 2018	22	Rest House campus, Sundargarh

MICRO PLANNING TRAINING PROGRAMME FOR FIELD OFFICIALS

To sensitize the field functionaries on the importance of Micro Planning as a project management tool, a one day Orientation Programme on “Micro Planning Preparation Exercise” of OFSDP Phase-II” was planned for each DMU. Accordingly the DMUs conducted training programmes in their respective FMUs which are to be covered in the first batch. The broad objective of the training was to develop a broad understanding on the Micro Plan and facilitate the preparation of Micro Plan at field level through initialing discussion on topics like Inputs of Micro Planning, Activities of Micro Planning, Outputs of Micro Planning with Indicators, Outcomes of micro planning with success indicators, Overall goal, Implementation of Micro Plan, Monitoring & Evaluation.

The orientation programmes were organized with the following objectives:

- The officials will have a broad understanding on micro planning exercise with respect to implementation of OFSDP-II project work
- The officials will have a clear idea about micro planning process, Tools of PRA exercise for collection of Data, house hold survey, Livelihood Opportunity Analysis, preparation of comprehensive plan and approached for inter-sectoral convergence.

The training sessions covered the major thematic areas, viz.

- Microplanning process
- Tools of PRA exercise for collection of Data, and house hold survey, Livelihood Opportunity Analysis,
- Preparation of comprehensive plan
- Approached for inter-sectoral convergence

REPORTS

LAUNCHING OF OFSDP-II (BANAYANA)

In our series of coverage on the launching of Banayana Project in different Divisional Management Units of Odisha Forestry Development Society, we bring you the rest of the launching events in this edition of newsletter.

GHUMSAR NORTH FOREST DIVISION

The launching programme of Banayana under Odisha Forestry Sector Development Project (OFSDP-II) was held on 1st December 2017 at Ghumusar North Forest Division. The launching programme was organized at Nursery Training Centre (Lalsingh) under the DMU and it was inaugurated by DFO-cum-DMU Chief of Ghumusar – South.

JHARSUGUDA FOREST DIVISION

Odisha Forestry Sector Development Project, Phase-II - Banayana was launched in Jharsuguda DMU on the occasion of World Forestry Day. The launching programme was inaugurated by DFO-cum-DMU Chief of Jharsuguda on 21st March 2018 at the Divisional Office.

RAIRANGAPUR FOREST DIVISION

Odisha Forestry Sector Development Project, Phase-II - Banayana was launched in Rairangapur Division on 18th January 2018 at the Conference Hall of DMU. This was inaugurated by Shri Kalunge Gorakh Waman, IFS, DFO-cum-DMU Chief of Rairangapur.

DHENKANAL FOREST DIVISION

The Banayana (OFSDP -II) was launched on 03.01.2017 at Central Nursery of Dhenkanal Forest Division, Dhenkanal. The DFO-cum-DMU Chief of Dhenkanal inaugurated launching ceremony and welcomed all the participants. The Officials from DMU, FMU, PNGO, local media persons and VSS Members were present in the programme.

BOUDH FOREST DIVISION

The Banayana under OFSDP –II was launched in Boudh DMU on 12th December 2017 at DRDA Conference Hall of Boudh. The District Magistrate-cum-Collector of Boudh has inaugurated the project by lighting the lamp. DFO-cum-DMU Chief of Boudh presided over the launching ceremony and welcomed all the participants.

SUNDARGARH FOREST DIVISION

The Banayana (OFSDP -II) was launched on 03.01.2017 at Central Nursery of Dhenkanal Forest Division, Dhenkanal. The DFO-cum-DMU Chief of Dhenkanal inaugurated launching ceremony and welcomed all the participants. The Officials from DMU, FMU, PNGO, local media persons and VSS Members were present in the programme.

NEWS & EVENTS

ENGAGEMENT OF PROJECT MANAGEMENT CONSULTANTS OF OFSDP-II.

In accordance with the minutes of discussion of Odisha Forestry Sector Development Project, Phase-II (OFSDP-II), selection of Project Management Consultant (PMC) was made in accordance with JICA Guideline. The consortium of M/s PADECO Co., Ltd. Japan and M/s EPTISA Servicios de Ingenieria S.L., Spain were selected as the Project Management Consultants for OFSDP-II, following the detailed procedures.

Dr. Pradeep Raj Karat, IFS, Joint Project Director, OFSDP, on behalf of Odisha Forestry Sector Development Society (OFSDS) signed an agreement with M/s PADECO Co., Ltd. Japan and M/s EPTISA Servicios de Ingenieria S.L., Spain on 27th April, 2018 for engagement of Project Management Consultants for OFSDP-II. Sri Hasanul Islam, the authorized representative from M/s PADECO Co., Ltd. Japan and Mr. Subrata Majumdar from M/s EPTISA Servicios de Ingenieria S.L., Spain signed the agreement. The objective of the Consulting Services is to assist the Project Management Unit, OFSDP-II in implementation of Project Interventions in the following areas:

- Assist in the management of the project.
- Technical Assistance in the implementation of the project components/activities in an efficient manner with technology transfer.
- Facilitation of implementation of Environmental Management Plan (EMP) and Environmental Monitoring Plan (EMoP)

FIRST REVIEW MEETING OF DMU CHIEFS ON PROGRESS OF IMPLEMENTATION OF OFSDP-II

The first review meeting of the OFSDP-II Divisional Management Units was organized on 25th June 2018 at PMU of OFSDS, Bhubaneswar. The meeting was presided by the Project Director OFSDP, Phase-II. Additional PCCF-cum-RCCF Angul, RCCF Berhampur, Rourkela, Sambalpur, Bhubaneswar and Bhawanipatna along with eleven DMU Chiefs and one Assistant DMU Chief and all the senior officers of PMU were present in the meeting.

At the outset PD, OFSDS appraised all regarding progress of OFSDP-II with regard to preparatory works which were scheduled to be completed during 2017-18. All the RCCFs expressed their views regarding satisfactory implementation of the project at field level. It emerged from the function that capacity building of different stakeholders needs to be initiated from the beginning of the project. Discussions were also held extensively on various project components such as finalisation of VSSs in the 1st batch of OFSDP-II, selection of animators, progress of construction of FMU and VSS buildings, completion of survey and demarcation, finalizing component wise targets of each DMU were discussed extensively. Timelines and targets for each component were fixed for the DMUs after detail deliberation. PD, OFSDS urged all to work cohesively to achieve the project objective and the timeline.

NCSCM WORK ON BIO-DIVERSITY COMPONENT REVIEWED ON 12TH APRIL, 2018

NCSCM Meeting Theme

A review meeting on the work of NCSCM, Chennai was organised at PMU of OFSDS on 12th April, 2018. Ms. Meeta Biswal, Additional Project Director of OFSDP-II chaired the review meeting. She gave an overview of the major bio-diversity component of OFSDP-II and the scope of works on the bio-diversity components in both Bamara and Bhitarkanika region.

The team of NCSCM, Chennai appraised the PMU on the project timeline and different components currently undertaken individual by research experts. The team also appraised the new technology adopted by NCSCM and proposed interventions to examine certain indicators of bio-diversity ecosystems in Bhitarkanika.

The meeting was attended by Dr. Ajit Kumar Patnaik, Ex-PD of OFSDP, with the officials of the PMU. Dr. Patnaik shared the experience of preparing the health report card of a biological hot spot like Chilika and he deliberated on the possible requirements in completing the project.

Under Bio-diversity Component of OFSDP-II, NCSCM, Chennai is presently working on the Development of Eco-system Health Card of Bhitarkanika Sanctuary. The team is deployed at the sanctuary area to collect the inputs for analysis of data and preparation of the report card.

FORTNIGHTLY MEETING OF PMU HELD ON 20TH APRIL 2018

Progress of implementation of Odisha Forestry Sector Development Project – II and Ama Jangala Yojana (AJY) was discussed in the fortnightly review meeting of PMU of OFSDS on 20th April 2018. The meeting was Chaired by Shri L.K.Tiwari, PD, OFSDP. He directed that

the targets of each component under different schemes must be achieved within the stipulated timeline. He also suggested that all operational issues of DMUs need to be resolved at the earliest by the PMU. The meeting was attended by Ms. Meeta Biswal, Additional Project Director (IME), Dr. P.R.Karat, Joint Project Director (A&F)

REVIEW MEETING ON PARTNERSHIP ECOSYSTEM INITIATIVES HELD ON 28TH APRIL 2018

A review meeting was convened at PMU of OFSDS on 28th April, 2018 to assess the progress of implementation of Partnership Eco-System Initiatives undertaken in OFSDP Phase-I cluster villages. The meeting was chaired by Sri Lalit Kumar Tewari, IFS, Project Director, OFSDP.

For the successful implementation of this initiative, Project Director, OFSDP-II directed that a dedicated cell may be formed at DMU level under the chairmanship of DMU-Chief to monitor and review the actions at the ground level on this initiative and suggest further actions and to suggest periodic interventions. The partner organisations viz. Industree, Dhritii, Dabur – Baitarani Initiative, Aranyak, Ek Gaon were present during the review meeting. After their detailed presentation on the activities and progress at ground level, various operational issues were discussed with the concerned DMU Chiefs.

PROJECT DIRECTOR DELIBERATED ON NATIONAL SEMINAR ON CROP DIVERSIFICATION

Shri L.K. Tiwari, IFS, Addl. PCCF, Projects-cum-Project Director, OFSDP attended a two day workshop on the theme “Challenges and opportunities in Crop Diversification” organized by Himachal Pradesh Crop Diversification Promotion Project (HPCDP) at Dharmshala, Himachal Pradesh from 7th to 8th May 2018, with the support of JICA & Dept. of Agriculture Govt. of Himachal Pradesh. In this workshop the Project Director, OFSDP made a PPT on the livelihood activities of OFSDS with special reference to the proposed Livelihood Resource Centre (LRC) envisaged under OFSDP-II.

KNOW THE PROJECT

ACTIVITIES PROPOSED UNDER OFSDP-II

In our series of 'Know the Project', this quarter we are bringing your attention to the 3rd Component of the project i.e., sustainable Biodiversity management which is as follows..

SUSTAINABLE BIODIVERSITY MANAGEMENT

Under this component there are two activities proposed in OFSDP-II. One is Sustainable Biodiversity Management adopting concepts of SATOYAMA model and the other one is Sustainable Management of Bhitarkanika.

SUSTAINABLE BIODIVERSITY MANAGEMENT ADOPTING CONCEPTS OF SATOYAMA MODEL

SATOYAMA is a Japanese term which means landscapes. In many parts of the world, people have developed ways to utilize and manage their surrounding natural environment to sustain and improve their daily lives and production activities such as agriculture, forestry and fisheries. Socio-ecological production landscapes (SEPL) are dynamic mosaic of habitats and land uses that have been shaped over the years by the interactions between

people and nature in ways that maintain biodiversity and provide humans with goods and services needed for their well-being.

SATOYAMA Initiative provides a conceptual framework for the sustainable landscape management through 6 core approaches:

- Resource use within the carrying capacity of the environment;
- cyclic use of natural resources;
- recognition of the value and importance of local traditions and cultures;
- multi-stakeholder participation and collaboration;

- contribution to socio-economies and
- improvement of community resilience.

The combination of these interventions can be implemented by adopting: i) consolidating wisdom on securing diverse ecosystem services and values; ii) integrating traditional ecological knowledge and modern science to promote innovations; and iii) exploring the new forms of co-management systems.

PROPOSED INTERVENTIONS

The concept of SATOYAMA model, for sustainable management of landscape and biodiversity is proposed within Badrama Sanctuary area in Bamra Wildlife Division. Bamra Wildlife Division in Sambalpur District is proposed for execution under OFSDP-II. The project proposal in this regard is currently under progress and its implementation will commence from 2018-19.

INTRODUCTION OF AN ECO-SYSTEM BASED MANAGEMENT IN BHITARKANIKA PROTECTED AREA AND DEVELOPMENT OF A MONITORING PROTOCOL

Loan agreement of Odisha Forestry Sector Development Project Phase-II inter-alia deals with sustainable management of Bhitarkanika Sanctuary, a unique mangrove ecosystem which is a Ramsar Site (registered in 2002) and one of the largest mangrove ecosystems in the world and provides a habitat for a range of resident and migratory birds from Central Asia and Europe and known for salt water crocodiles (*Crocodylus porosus*) and Olive Ridley Sea Turtles (*Lepidochelys olivacea*), just to name a few. There are 490 villages around the sanctuary and 410 villages within the sanctuary holding the population of 0.9 million. In the OFSDP-II Project document it is observed that while the human interference is rapidly degrading the eco-system of the Sanctuary, there is an urgent need to reinforce the management practices of the sanctuary through OFSDP-II.

The Ecosystem Health Report Card used by the Chilika Development Authority helped the Chilika Lagoon ecosystem for maintaining its balance. A similar intervention has been proposed for use as part of the management practices of Bhitarkanika Sanctuary. Such Ecosystem Health card is envisaged to confine to the scientific analysis of information on the respective ecosystems including water quality, biodiversity and other indicators.

The report card is anticipated to visually present the assessment results and communicate to the wider audiences including EDCs the condition of the ecosystem. This report card can be utilised for the awareness creating among the stakeholders operating within or outside of the sanctuary and also help the Forest Department to plan for the effective interventions to address the drivers of degradation of ecosystem.

The OFSDP-II has commissioned a research study on Long Term Monitoring Plan for Ecosystem based conservation Management for Bhitarkanika Conservation Area. The objective of this study is to develop an integrated science based management plan involving various components for the sustainable management of the mangrove ecosystem. These components shall focus on understanding of how mangroves will respond to climate changes, what factor will help them survive these changes, and how, the community will respond.

The three year research work has been commissioned to the National Centre for Sustainable Coastal Management (NCSCM), Chennai under Ministry of Environment, Forest & Climate Change, Government of India after the approval of the Governing Body of OFSDS in 1st November 2017. An agreement between the OFSDP-II and NCSCM on execution of this project were signed on 05.12.2017.

AWARDS AND RECOGNITIONS

PRAKRUTI MITRA AWARD TO TIKARAPALLI VSS OF GHUMSUR (SOUTH) DIVISION

The Tikarapalli VSS has received the PRAKRUTI MITRA award from Govt of Odisha for the year 2018 in recognition of its exemplary work of community mobilization to safeguard natural forests under Ghumsar South Division.

The Tikarapalli VSS of Panchabhuti Section of FMU Buguda under Ghumsar South Division was formed in the year 1995 and reconstituted in 2015-16 as per the JFM resolution 2011 and 2015. The total HHs of the VSS is 62 and population is approximately 260. The VSS is coming under the Chanamunda RF compartment No 3 and the area of 100 hector is taken as assigned area in OFSDP-II project.

The VSS people are mostly dependent on the forest products to earn their livelihood and maintenance of family. Before community mobilization was initiated in the VSS the forests were damaged due to rampant cutting of trees and forest fire. But after constant interventions under the OFSDP of the Forest Department through different community mobilization, orientations and regular interaction among the villagers the VSS people have started to protect the forest by following the thengapalli system in which a thenga (stick baton) is carried by the VSS people for patrolling in the forest area. In the last summer season regular meeting and awareness camps were conducted by FMU Buguda and P.NGO LIPICA on the adverse effect of forest fire and the mitigating measures. The VSS people are now actively protecting the valuable trees and saving the life of wild animals like bear, black buck, peacock, pea fowl which are residing in the forest.

INFRASTRUCTURE DEVELOPMENT UNDER OFDP-II

Infrastructure is one of the important parts of implementation of any project. This component added to sustainability of the programme and interventions. Under OFSDP-II, special focus has been given to development of infrastructure at institutional level. To accommodate the field staffs and proper functioning of day to day project activities funds has been provided to respective DMUs for construction of DMU and FMU Office Buildings. This quarter there are number of infrastructures completed as planned by different DMU.

The FMU extension Building of FMU Buguda under Ghumsur South Division was inaugurated on 04.06.2018 by Sri L.K Tiwari, Project Director OFSDP-II in presence of Sri Shashi Paul, Regional Chief Conservator of Forest, Berhampur Circle, Sri B. K Acharya, DFO cum DMU Chief of Ghumsur South Division, Sri Ramasamy P, DFO cum DMU Chief Ghumsur North Division, Sri B.B Behera ACF cum Asst DMU Chief of Gh South Division, Sri P.K Sahu, RO cum FMU chief Buguda and other staff of FMU Buguda.

The DMU extension Building of Ghumsur South Division was inaugurated on 04.06.2018 by Sri Shashi Paul, Regional Chief Conservator of Forest, Berhampur Circle in presence of Sri B. K Acharya, DFO cum DMU Chief of Ghumsur South Division, Sri Ramasamy P, DFO cum DMU Chief Ghumsur North Division, ACFs of both the Division, Range Officers, Project Staff of DMU Ghumsur South Division, foresters and forest Guards.

The Project Director of OFSDP-II Sri L.K. Tiwari, IFS, inaugurated the new DMU office Building and FMU office building in the campus of Divisional forest office, Boudh in presence of DFO-Cum-DMU Chief, Boudh, Asst. DMU Chief, Boudh and Puruna cuttack, DMU support staff, FMU support staff, PNGO team and other field staffs.

On 5th June 2018, the Project Director, OFSDP Phase-II Sri Lalit Kumar Tewari, IFS inaugurated the FMU buildings of this division situated at Athmallik, Madhapur and Bamur during his visit to Athamallick Forest Division.

Shri L.K.Tiwari, IFS, Project Director of OFSDP, Phase-II inaugurated the new Forest Management Unit office building of Thakurmunda Range in the Karanjia DMU on 26th June 2018. The new building was inaugurated in the presence of Shri M. Maloth Mohan, IFS, RCCF, Baripada and Sri P.K. Behera, DFO-cum-DMU Chief, Karanjia, Assistant DMU Chief, DMU support staff, FMU support staff and other field staffs.
